“ One Day Creative worked with my class of year 3 children as part of their learning about the Stone Age. The day was amazing - it sparked the children’s learning off in a visual, creative and energetic way. One Kind Word

We all know words are powerful, they can spark imagination and bring our stories to life. The right words have the ability to help us become confident, happy humans. Sadly though, unkind words can hurt feelings and damage self-esteem – both in ourselves and others. This One Kind Word workshop, created especially for **Anti-Bullying Week 2021**, explores the importance of empathy in every single conversation we have. Whether you're chatting at home, over the internet or in school, this anti-bullying workshop for primary schools encourages pupils to consider the impact of the words they choose. What's more, you'll find out how one kind word often leads to another!

- Explore how behaviour can affect others
- Examine the nature and consequences of bullying
- Express ideas and feelings through voice, movement, role play and drama

“ All children were encouraged to join in and there was a no-risk culture created where all suggestions and contributions were valued and praised. The activities were pitched perfectly and were aimed perfectly at the age range of the children. The trainer who led this workshop was absolutely fantastic with the children. He guided all of the activities and explained everything in a way the children were fully engaged. When responding to the children's answers he was careful to ensure any sensitive or controversial issues that arose were dealt with in a thoughtful and compassionate way. The children thoroughly enjoyed all of the activities and it was lovely to see them once quiet children blossom into confident actors.”
